

### **Construction Management Summer Intern**

What will you be doing this summer? If you enjoy a good workout (your brain), and like to get dirty (your boots), we invite you to consider Nibbi Brothers General Contractors for your summer internship.

When you intern with us, you will gain hands-on experience under the guidance of a volunteer mentor who enjoys helping others grow. We will plan for your best outcome by understanding your goals before you even start. An internship with Nibbi, whether in our general contracting, concrete or self-perform group will add dimension to your coursework when you return to school.

Nibbi is different. We are proud of our family culture and taking on projects that have a positive impact on the communities where we work. Above all, we work safely.

We look at our internship program as building bench strength for our growth. We promote from within, which means we grow from entry level up. Here is what we look for in our intern candidates:

- On the path to a Construction Management, or a related degree
- Initiative
- Humility
- Dependability
- A drive to learn
- Resourcefulness
- Passion for construction
- Team spirit
- Integrity
- Perseverance
- Will not compromise on safety. Ever.

Nibbi Brothers General Contractors is an equal opportunity employer.
